EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims directed to methods and products non-elected without traverse. Accordingly, claims 104-132, 137-160, 162-165 been cancelled.

In the specification, on page 1, lines 8-13, line 8, after "U.S. Serial No. 09/080,968, filed 19 May 1998, - now US patent 6,197,356 – has been inserted."

The following is an examiner's statement of reasons for allowance: the claims were very similar to claim 7 of US Patent 6,197,356 and further require a radioimmunoassay which was not found in the prior art in connection with the claimed nuts treated with a super critical fluid. A terminal disclaimer was filed previously over US Patent 6,197,356.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Helen F. Pratt at telephone number 571-272-1404.
